STATEMENT OF HORTY SPRINGER & MATTERN ON ENGAGEMENT WITH CATHOLIC MEDICAL CENTER

The Board of Trustees of Catholic Medical Center, with the support of Administration and the Medical Executive Committee, has approved an external review of past and current practices with a focus on its credentialing, peer review and quality improvement processes. Horthy, Springer & Mattern, P.C., a nationally recognized health law firm, has been engaged to perform this independent review. The Board selected HorthySpringer because of its reputation as a leader in the health care field. Since 1971, HorthySpringer has been dedicated to working with hospital, board, and physician leaders, across the country, to ensure that patients receive high quality, safe, competent care. Over that time, HorthySpringer has prided itself on impartial and unbiased work. To that end, HorthySpringer will perform an independent, objective, and comprehensive review and will report its findings, conclusions, and recommendations to the Board of Catholic Medical Center.
