

Elizabeth Angelakis, M.D.

Diagnostic Radiology

Catholic Medical Center
Southern NH Radiology Consultants
Bedford
CMC Breast Care Center, Bedford

“Make miracles happen.” My daughter’s skating team, Ice Mates, cheers this before taking the ice. To them, it’s about performing their best in perfect synchronization. In breast care, the miracle happens when we find cancer at the earliest moment to give a woman her best chance at survival and successful treatment. Inspiration comes from being part of the breast care team, “making miracles happen,” for every woman, every day.
